

Gourab Giri

Flutter Developer — Cross-Platform Mobile Application Developer

Contai, West Bengal, India

Email: gourabgiri164@gmail.com Phone: +91 8293949302

GitHub: github.com/gourab-giri7 LinkedIn: linkedin.com/in/gourab-giri001/

Professional Summary

Flutter Developer with hands-on experience building and deploying production-ready Android applications using Flutter and Dart. Developed a live College ERP application published on Google Play and multiple AI-powered mobile applications integrating Firebase, RESTful APIs, and Gemini AI. Experienced in designing scalable architectures, implementing state management with GetX and Provider, integrating backend services, optimizing application performance, and delivering responsive user interfaces. Strong understanding of clean architecture, asynchronous programming, and modern mobile application development practices.

Technical Skills

Languages: Dart, C, Python, JavaScript, HTML, CSS

Frameworks & SDKs: Flutter SDK

State Management: GetX, Provider

Backend & APIs: RESTful APIs, HTTP Package, Firebase Authentication, Cloud Firestore

Database & Storage: Hive, SQLite, Firebase Cloud Storage, SharedPreferences

Architecture: Clean Architecture, Modular Architecture

Routing: GoRouter

Tools: Git, GitHub, Android Studio, VS Code, Postman

Deployment: Google Play Console, APK/AAB Release Management

Concepts: Asynchronous Programming, JSON Parsing, API Integration, Responsive UI, Performance Optimization

Key Projects

CCLMS Edutech – College ERP Application

Dec 2025 – Jan 2026

Flutter, GetX, REST API, Laravel Backend

Live: Google Play Store

- Developed and deployed a production-ready College ERP application currently available on Google Play Store.
- Integrated Laravel REST APIs for student management, attendance, examinations, academic records, and administrative workflows.
- Built reusable UI components and modular architecture to improve maintainability and scalability.
- Implemented asynchronous API handling, loading states, and error management for a smooth user experience.
- Optimized application responsiveness through efficient GetX state management and reusable widget architecture.
- Generated production APK/AAB builds, performed testing, debugging, and managed Play Store deployment.

Resume Xpert – AI Resume Analyzer

Feb 2026

Flutter, Firebase, Provider, GoRouter, Clean Architecture

GitHub: github.com/gourab-giri7/ResumeXpert

- Developed an AI-powered resume analysis application using Flutter and Firebase following Clean Architecture principles.
- Integrated Gemini AI to generate resume scores, ATS evaluation, skill gap analysis, and personalized improvement suggestions.
- Implemented PDF upload, Firebase Authentication, Cloud Firestore, and user history management.
- Designed modular application architecture using Provider and GoRouter for scalable state management and navigation.
- Integrated an AI chatbot to assist users with interview preparation and career guidance.

- Built an AI-powered career guidance platform during a college hackathon using Flutter and Gemini AI.
- Integrated AI-based recommendation engine to generate personalized career paths, degree recommendations, and skill roadmaps.
- Connected Firebase Authentication and Cloud Firestore for secure user management and data persistence.
- Designed a responsive Flutter interface using Provider and modular architecture.
- Collaborated in a fast-paced team environment to deliver a functional prototype within strict hackathon timelines.

- GitHub: github.com/gourab-giri7/Foodopedia
- Designed and developed a recipe application featuring categorized recipes, ingredients, cooking videos, and step-by-step preparation guides.
 - Implemented Firebase Authentication for secure user registration and login functionality.
 - Utilized Cloud Firestore for storing and managing recipe data and user information.
 - Integrated YouTube video playback for recipe demonstrations.
 - Applied GetX for efficient state management, routing, and dependency injection.
 - Developed reusable widgets following modular and maintainable development practices.

Professional Experience

Flutter Developer — Academic & Personal Projects

- Developed and maintained multiple Flutter applications ranging from ERP systems and AI-powered applications to productivity and utility apps.
- Integrated RESTful APIs, Firebase services, and local databases including Hive and SQLite.
- Implemented responsive UI, reusable widgets, state management, and clean architecture for scalable application development.
- Built production-ready Android releases (APK/AAB) and managed deployment through Google Play Console.
- Worked with Git and GitHub for version control, debugging, and collaborative development.

Achievements

- 2nd Runner-Up – Intra-College Hackathon (20 Participating Teams)
- Jun 2026
- Developed an AI-powered Career Guidance Platform using Flutter and Gemini AI.
 - Recognized for innovation, technical implementation, and practical impact in assisting students with career planning.

Education

Bachelor of Computer Applications (BCA)
Expected Graduation: 2027
Contai College of Learning and Management Science
SGPA: 8.68 (Sem 1) 8.59 (Sem 2) 7.95 (Sem 3)

Higher Secondary (12th)
Nekursuni Krishi Silpa Siksha Sadan 84%

Secondary (10th)
Nekursuni Krishi Silpa Siksha Sadan 74%

Additional Information

Strong analytical and problem-solving skills with a passion for building scalable Flutter applications. Enthusiastic about learning modern mobile technologies and contributing to collaborative software development teams.
